EDUCATION

University of Oxford

DPhil in Engineering Science

Oxford, UK

2022 to Present

- **Thesis title:** *Human AI Collaboration in Healthcare*
- **Supervisors:** Professor Alison Noble CBE FRS FREng FIET, Professor Helen Higham
- **Funding:** Awarded competitive fully funded EPSRC Studentship [EP/S02428X/1]

University College London

MSc in Data Science

London, United Kingdom

2019 to 2020

- Graduated with Distinction.
- **Relevant Modules:** Deep Learning, Applied Machine Learning, Bayesian Methods, Statistical Learning
- **Thesis:** *Model-Agnostic Meta-Learning for Few-Shot Deep Learning*

University of York

BSc (Hons) in Mathematics

York, United Kingdom

2015 to 2018

- First Class Honours (Rank 2nd in Cohort)

EMPLOYMENT HISTORY

National Health System (NHS England), UK

Data Scientist

2020 to 2022

- Engineered a Bayesian hierarchical Early Warning System to forecast COVID metrics at a national scale, directly supporting operational planning for trusts across the UK.
- Directed the full lifecycle of machine learning products from cleaning large scale national datasets to production deployment using Python, R, and SQL.
- Mentored junior analysts and supervised MSc research projects to foster technical growth within clinical data science teams.

SELECTED PUBLICATIONS

- **Strong, J.**, Saha, P., Ibrahim, Y., Ouyang, C., Noble, A. "Identity Free Deferral for Unseen Experts." *ICLR 2026* [1].
- **Strong, J.**, Men, Q., Noble, A. "Trustworthy and Practical AI for Healthcare: A Guided Deferral System with Large Language Models." *AAAI 2025 & ICML 2024 Workshop on LLMs and Cognition* [2].

TEACHING AND SERVICE

- **Graduate Teaching Assistant:** Tutor for various group-based AI projects for students on doctoral training programs or international visits.
- **Reviewer:** NeurIPS 2024, ICML 2024, ICLR 2025.
